NOTICE OF PUBLIC HEARING REGARDING BOROUGH OF BUTLER'S APPLICATION FOR APPROVAL OF A CHANGE IN ITS LEVELIZED ENERGY ADJUSTMENT CLAUSE

BPU Docket No.

TO THE MUNICIPAL CLERK AND CUSTOMERS OF THE BOROUGH OF BUTLER:

PLEASE TAKE NOTICE that on February 1, 2024, the Borough of Butler filed a petition with the New Jersey Board of Public Utilities ("Board") seeking the Board's approval of a proposed decrease in its Levelized Energy Adjustment Charge ("LEAC") rate ("Petition").

According to the Petition, the present LEAC rate, which is \$0.057195 per kilowatt ("kWh") hour, should be decreased to \$0.022856 per kWh (a \$.034339 per kWh decrease) for all classes of customers. The LEAC is adjusted by increasing or decreasing the rate quarterly subject to a rate cap of \$0.151718 per kWh. The Petition proposes that the new LEAC rate be in effect for services rendered after April 1, 2024.

The Petition further provides that if the proposed LEAC rate is implemented on April 1, 2024, the average bill impact for a residential customer, inclusive of the 6.625% New Jersey Sales and Use Tax, served by the Borough of Butler in Bloomingdale, Riverdale, Kinnelon or West Milford, using the following kWh, would be as follows:

<u>Customer</u>	Average Monthly <u>Usage (kWh)</u>	Current <u>Rate</u>	Proposed <u>Rate</u>	<u> \$ Decrease</u>	% Decrease
Residential	1,000	\$108.04	\$71.43	(\$36.61)	(33.9%)

Any final rate adjustments found by the Board to be just and reasonable may be modified and/or allocated by the Board in accordance with the provisions of N.J.S.A.48:3-4, and for other good and legally sufficient reasons, to any class or classes of customers of the Borough of Butler. Therefore, the rates set out above may increase or decrease based upon the Board's decision.

A copy of this Notice of Public Hearing is being served upon the Municipal Clerks for the Borough of Butler, Borough of Bloomingdale, Borough of Riverdale, Borough of Kinnelon, Township of West Milford and the New Jersey Division of Rate Counsel ("Rate Counsel") who will represent the interests of all Borough of Butler customers in this proceeding. Borough of Butler Electric Utility Rate Schedule No. 6 Energy Adjustment Clause

An additional charge shall apply to all kilowatt hours supplied under this tariff for metered service or estimated kilowatt hours consumed by non metered service for the twelve month period ending March 31, 2025, for the projected average cost per kilowatt hour for demand and energy purchased by the Borough during said period, computed as follows:

A = [(C)(P/S)]

Where "A" is the adjustment per kilowatt hour applicable to each kilowatt hour furnished under the tariff in the period.

"C" is the projected cost of purchased energy and demand during the ensuing twelve months divided by the total number of kilowatt hours to be received in said period.

"P" is the projected total number of kilowatt hours to be purchased by the Borough during the ensuing twelve-month period.

"S" is the projected total number of kilowatt hours to be delivered by the Borough to it's consumers during said period.

All calculations of ratios and money (in dollars) shall be made to six decimal places, with the value of "A" rounded to the nearest ten thousandth of a cent per kilowatt hour.

The energy adjustment shall apply after the rate and minimum charge provisions of the tariff and any contracts.

In order to assure that during the said period of time the Borough recovers neither more nor less through the application of this clause than the excess cost of purchased energy and demand above the base energy cost, the following procedure shall apply:

Borough of Butler Electric Utility Rate Schedule No. 6 Energy Adjustment Clause (Continued)

The Borough of Butler Electric Utility shall maintain a monthly record of the amounts paid to the various energy suppliers, attributable to the energy adjustment clause. A record shall be kept of the amounts of energy adjustment charges billed by the Borough of Butler to its retail customers. The Borough of Butler Electric Utility shall report the transactions and balances to the Board of Public Utilities monthly. Any balance (debit or credit) remaining at December 31 of each year shall be considered when calculating the succeeding period's energy adjustment clause.

Should actual costs vary from projections by 5% or more, the Borough of Butler shall file a revision to this tariff section. For the purpose of determining the amounts of recovery to which the Borough is actually entitled, the same formula will apply with these changes:

"A" will apply to the current month.

"C" will be the projected cost of purchased energy and demand during the prior month divided by the total number of kilowatt hours received in said prior month.

"P" is the total number of kilowatt hours purchased by the Borough during the twelve month period ending with the prior month.

"S" is the total number of kilowatt hours delivered by the Borough to it's consumers during the most recent twelve-month period.

Petitions for changes in the energy adjustment clause shall be filed at least 45 days before the effective date of such changes.
